Computability

The Journal of the Association CIE

www.iospress.com/computability

www.computability.de/journal

Aims and Scope

Computability is the journal of the association Computability in Europe (CIE). It is a peer reviewed international journal that is devoted to publishing original research of highest quality, which is centered around the topic of computability. The subject is understood from a multidisciplinary perspective, recapturing the spirit of Alan Turing (1912–1954) by linking theoretical and real-world concerns from computer science, mathematics, biology, physics, computational neuroscience, history and the philosophy of computing.

Submit your research

You can submit your research via the online submission system at:

www.mstracker.com/submit1.php?jc=com

For full author instructions, please visit the website:
